EXPERIENCE

Lucy Vietnamese

November 2021 - Present

Cashier, Food Service, Kitchen Staff

- Working in various food service companies as a part time job during my studies.
- Providing excellent customer service while quickly executing transactions with accuracy in a stressful and fast-paced environment.
- Executing the Job and receiving employee of the month multiple times, given leadership role when manager is off duty.

PYE Education Center

Remote (July 2023 - August 2023)

Project Researcher, Internship

- Developed and executed 7-10 Java programming projects per week, tailored to the comprehension levels of middle school students.
- Conducted regular workshops to introduce coding concepts, troubleshoot issues, and provide guidance to students.
- Adapted project content based on student feedback, resulting in an improved learning experience and increased engagement.
- Managed project deadlines and ensured timely delivery of completed projects, fostering a productive and efficient work environment.

TECHNICAL PROJECTS

Discord Weight Tracker bot Project

- Developed a Discord bot using Python and the discord.py library.
- Implemented features for users to log and track their workouts, including setting exercise names, sets, weights, and reps.
- Utilized a CSV file to store user-entered workout data.
- Added functionality to view, remove, and retrieve workout information and incorporated date logging for each entry.

Java Bank Account Management System

- Account creation with user-defined account numbers and initial balances and deposits and withdrawals with transaction history tracking.
- Demonstrated proficiency in Java, Object-Oriented Programming (OOP), Git, and GitHub.
- Overcame technical challenges, including resolving divergent branches and Git conflicts to maintain a clean and efficient codebase.

ACTIVITIES

Soup Kitchen Sunset Park, Brooklyn, NY

January 2020 – March 2020

- Collaborated with the church to offer additional support when needed.
- Assisted in providing food services to the homeless population, extending care and support within the kitchen.
